

I live in Indiana and have my name and phone number on the attorney general's do not call list. Please do not make Indiana change the don't call law. It is a blessing. I usually received an average of 5-6 calls per night from 7:00 P.M. to 11:00 P.M.; from various organizations trying to get me to purchase insurance, cars, houses, home improvements, etc. Now I receive less than 1 call per week from non-profit organizations. The Indiana law has been an excellent example of good government. Please don't make the state change its law. Thank you for reading my opiniion on this matter.
